PROFESSIONAL SUMMARY

Dynamic and forward-thinking Software & AI Developer with a strong foundation in Python, GenAI integrations, and full-stack data applications. Adept at building autonomous AI agents and citizen-centric digital solutions. Passionate about leveraging Large Language Models (LLMs) and structured data to solve complex, real-world problems. Currently expanding analytical and legal frameworks through an ongoing LLB, complementing a core technical background in Computer Applications (BCA).

TECHNICAL SKILLS

- **Languages:** Python, JavaScript, Java, C++, C, SQL, HTML5, CSS3
- **AI & Machine Learning:** Google Gemini API Integration, Prompt Engineering, LLMs, Multi-Agent Systems
- **Frameworks & Libraries:** Streamlit, BeautifulSoup4, Requests, Pandas
- **Tools & Databases:** SQLite, Git, GitHub, Power BI, Advanced Excel, API Integrations
- **Core Competencies:** Data Analytics, Web Scraping, Prompt Design, Rapid Prototyping

CORE PROJECTS

Bharat Nexus | Flagship AI-Powered Digital Platform

Tech Stack: Python, Streamlit, Google Gemini API, SQLite, BeautifulSoup4

- **Architected** a unified digital platform designed to bridge information gaps for rural and elderly citizens through intelligent assistance.
- **Engineered** a hybrid 'Bharat Search' mechanism that combines real-time web scraping (Requests/BS4) with local indexed data for high-accuracy information retrieval.
- **Integrated** Google Gemini LLM to deploy 'Bharat AI', a multimodal, bilingual conversational assistant with contextual memory powered by an SQLite backend.
- **Designed** a seamless, responsive UI/UX using Streamlit, minimizing user friction for complex government document analysis.

EDUCATION

- **Bachelor of Legislative Law (LLB)**
Mahatma Jyotiba Phule Rohilkhand University (MJPRU) | 2026 – Present
- **Bachelor of Computer Applications (BCA)**
Mahatma Jyotiba Phule Rohilkhand University (MJPRU) | 2022 – 2025
- **Intermediate (Class XII)**
Shishu Vihar Inter College, Pilibhit | 2022

CERTIFICATIONS & ACADEMIC ACHIEVEMENTS

- **AI & Machine Learning Certification Program**
Jio: Actively pursuing comprehensive coursework focused on Artificial Intelligence, Machine Learning fundamentals, and applied AI technologies.

ADDITIONAL ENGAGEMENTS

- **Continuous Learning:** Active participant in digital tech ecosystems, exploring advanced data structures and AI-assisted coding paradigms.
- **Creative Pursuits:** Proficient in digital content creation and video editing; passionate about music (Guitar) as a creative outlet for structured problem-solving.
